

TK Tech Venture LLC

FEDERAL PROJECT, PROGRAM & PRODUCT MANAGEMENT · AI · CYBERSECURITY · SOFTWARE

SDVOSB · VETERAN-OWNED

UEI HTDMDCZVB8L8 · CAGE 20XX4 · SAM.gov Active

Senior federal program leadership with hands-on AI, cybersecurity, and software depth.

Founded by a recently retired U.S. Army Chief Warrant Officer 3 with 20 years of Signal and G6 leadership, TK Tech Venture combines PMP-certified program discipline with a portfolio of shipped production software. A deliberate single-principal SDVOSB: federal customers and primes get senior technical leadership applied directly to their problem – a principal who can scope a project, run a program, own a product, and translate fluently between contracting officers and engineers.

LEGAL ENTITY TK Tech Venture LLC (Texas)	UEI HTDMDCZVB8L8	CAGE CODE 20XX4
SAM.GOV Active	DESIGNATIONS SDVOSB (VetCert in process) · VOSB · Small Business	PRIMARY NAICS 541512
HEADQUARTERS Nolanville, TX 76559 (Fort Cavazos area)	ESTABLISHED 2026	DELIVERY MODEL Remote-capable; hybrid on-site as required

CORE COMPETENCIES

- Project, Program & Product Management**
PMP-certified federal program leadership with customer-side acquisition fluency.
- AI Strategy, Governance & Implementation**
Use-case prioritization, vendor evaluation, NIST AI RMF alignment, agentic systems design, AI governance.
- Cybersecurity & DevSecOps Leadership**
SAST/DAST integration, NIST RMF execution, ATO support, OWASP-aligned tooling, security-first SDL.
- Custom Software Development**
Full-stack web (React, Next.js, TypeScript), backend (Node.js, Python, PostgreSQL), mobile, APIs.
- Cloud & Infrastructure Engineering**
On-prem/hybrid cloud, GPU-accelerated AI workloads, sovereign self-hosted AI, CI/CD, zero-trust networking.
- AI-Assisted Developer Training**
Curriculum design and federal workforce upskilling for AI-assisted development and transitioning service members.

DIFFERENTIATORS

- Cross-disciplinary leadership – PMP plus a shipped-software portfolio
- Production AI practitioner – agentic systems, computer vision, self-hosted GPU infrastructure
- Customer-side acquisition fluency – RMF, eMASS, ATO from inside DoD program offices
- Hands-on delivery principal – performs technical work directly, not staffed delegation
- CMMC compliance-ready via C3PAO strategic partnership
- Security-first SDL – integrated SAST/DAST and OWASP-aligned controls

NAICS CODES

- 541512** Computer Systems Design (Primary)
- 541511** Custom Computer Programming
- 541519** Other Computer Related Services
- 541611** Admin & General Mgmt Consulting
- 541330** Engineering Services
- 611420** Computer Training

PSC CODES

- R408** Program Management/Support
- R425** Engineering & Technical Services
- R499** Other Professional Services
- D399** IT and Telecom Services
- D302** IT and Telecom Systems Development

STRATEGIC PARTNERSHIPS

CMMC C3PAO teaming partner: Program management with CMMC compliance overlay for CUI or certification alignment – one SDVOSB team.

Temple College workforce development: AI-assisted development training for career switchers and transitioning service members.

CAPABILITY EVIDENCE

- 20+ years U.S. Army Signal/G6 leadership – CONUS and OEF; multi-site network and cybersecurity programs
- Shipped agentic AI platforms – orchestration, computer vision, voice personas – on sovereign GPU infrastructure
- Published OWASP/Semgrep GitHub security scanner; SAST/DAST integrated on production deliverables
- AI-assisted development training delivered through Temple College partnership
